## INTRODUCTION

AKBAR AND ASSOCIATES is a Consulting firm practicing in the planning and design of diverse construction projects all over Pakistan and overseas. It has played a vital role and had an enormous influence on the face of industrialization in Pakistan. Apart from its unparalleled expertise in textile units and achievement in a wide spectrum of diverse industrial project, the firm takes great pride in its experience with iconic high-rise building, hospitals, bridges and historical monuments throughout the country.

AKBAR AND ASSOCIATES, now in the fifth decade of pioneer engineering design and operation, was founded by Mr. AKBAR GUL and Mr. YOUSUF NOOR MUHAMMAD in 1976. The services offered involve planning at the conception stage, detailed structural and architectural design, encompassing various building codes while ensuring economy of design, cost estimation and bill checking, construction co-ordination, all the way to the final completion of the project.

The company continues its focus towards providing exemplary and quality service through experience, integrity, teamwork and dedication. In the field of air-conditioning, electrical engineering, mechanical engineering and other related specialties, a panel of experienced and reputable associates in Pakistan and abroad are also at the disposal of this firm. Modern techniques are implemented and constantly revised to ensure cost and time effectiveness to achieve success of its projects.
